Expires : 11-24-1999
App Type : DUPLICATE

From first page, we know that license is currently suspended. In the following sections, we will find out why and what we can do for the client.

Suspended : 10-04-2019 FOR AN INDEFINITE PERIOD
Reason : SRR-SAFETY RESPONSIBILITY - DRIVER/OWNER
Authority : DOT ACTION
Mailed To : 10-14-2019 TO
Correspondence : 06-18-2019
Version : POINTS WARNING LETTER

This client is suspended because of their failure to comply with Wisconsin's Safety Responsibility Law. From this, we know that, in order to regain their license privilege, the client will need to follow up with either the DMV or a local agency to regain their license. We will need to read further to learn which agency and what the client needs to do.

From February to May of 2019, this client was pulled over and later convicted of a variety of traffic offenses. Some of these offenses led to points being added to their license, though not enough to lead to a suspension (12 in one year).

Several of the traffic violations, however, involved a recorded accident event on 5/3/19. Wisconsin Safety Responsibility Law imposes driver licensing and motor vehicle registration sanctions against uninsured motorists who do not pay for the damages they cause. This client was cited for a "No Insurance" violation, and apparently was involved in an accident. Under SR law, they needed to provide evidence of their ability to pay to the DMV. If they did not, their license can be suspended indefinitely.

We know why the client is currently suspended, but looking back to find any other license privilege barriers can be a good idea. We know, based on this reinstatement, that nothing from farther back is likely to affect the current eligibility.
